

Fee Table January 2024

One of our core values is sustainability. We aim to work towards optimal service accessibility. Our fees are based on Medicare rebates and gap fees to ensure clinicians' costs and income are covered. Gap fees may vary between practices, our fees are based on the average fees for comparable services in the area.

- Payment is automatically processed during the appointment.
- All Medicare rebated services need a formal mental health care plan from a GP dated on or before the appointment date.
- Rebates are processed daily at 4:30pm and should appear in your account the following business day.
- Some people prefer not to obtain a referral from their GP or are not eligible for one. In this case, the fee is considered a "Private Payment" and the full fee is payable.

In the case of a Mental Health Treatment Plan (MHTP), it is valid for up to **ten sessions** within a calendar year. For ongoing support following completion of the MHTP, the full private fee will be payable.

Type of appointment	Total fee	Medicare rebate 2024	Out of pocket (gap fee)
MEDICARE REFERRAL			
Psychology MHTP - 60mins	\$203.35	\$93.35	\$110

*Therapy fees vary dependent on the clinician. Please speak with your clinician prior to engaging in therapy to confirm fees associated and any possible rebates or concession rates available.

Cancellation policy:

Cancellations made **after 9am** the working day prior to the appointment and missed appointments will attract the full cancellation fee of **\$110** (across the board for all clinicians including Psychiatry, **\$105 for Clinical Psychology**) and are not eligible for the Medicare rebate.

It is standard practice that your GP will be informed of missed appointments.
